

TIBP

# GO Fast GO Forward GO Vegas

The Transportation Investment Business Plan

will secure a better future for Las Vegas

# PROPOSED RECOMMENDATIONS

**Near-Term Improvements: 1 to 5 years:**  
 Relatively quick improvements that will significantly improve access and mobility in the Core Area.

-  Transit Connectivity
-  Pedestrian Facilities
-  Street Connectivity and Mobility
-  Monorail Extension
-  Program and Policy Actions

**Mid-Term Improvements: 5 to 10 years:**  
 Investments that will take more time to complete and require partnerships with other public agencies and private parties.

-  Multimodal Transportation Center
-  Core Area High Capacity Transit
-  Freeway/Roadway Improvements
-  Regional Bus Connectivity
-  Monorail Extension to High Speed Rail

**Long-Term Improvements: 10 to 20 years:**  
 Large-scale investments that will accommodate significant increase in visitor volume, moving them seamlessly between McCarran International Airport, the Resort Corridor, the Convention Center, Downtown and beyond.

-  Core Area Light Rail Service
-  Russell Road Tunnel
-  Regional Rail Transit Connectivity
