

## MEMORANDUM

April 22, 2010

**TO:** Design Division   
**FROM:** Daryl James, Chief Road Design Engineer  
**SUBJECT:** 2010 Design Guide

The Road Design Division's 2010 Design Guide is complete and available for use. The new guide combines the 2009 Design Guide and the 2007 Plan Preparation Guide into one document.

If for some reason the new Design Guide creates any hardship with your current design, or effects project delivery, we will evaluate the changes on a project by project basis.

The new guide will be available on SharePoint under the Design Division's home page around the first week in May. The new guide will also be on NDOT's web site under "Reports and Publications".

Hardcopies will be also available around this time frame.

Thank You  
Daryl James
