

Nevada State Transportation Board of Directors One Nevada Project Prioritization Process

Sondra Rosenberg, PTP,
Assistant Director, Planning
May 11, 2020

ONE NEVADA TRANSPORTATION PLAN (ONTP)

- Adopted in 2018
- Addresses planning requirements under MAP-21 and FAST Act.
- Performance-based long-range transportation plan that establishes six key goal areas.
- Aligns with national, regional, and statewide goals.
- Establishes framework for a transparent, data-driven prioritization process of long-range, mid-range and short-range projects

ONTP GOAL AREAS AND RECOMMENDED CRITERIA

Enhance Safety	Preserve Infrastructure	Optimize Mobility	Transform Economies	Foster Sustainability	Connecting Communities
1.1 Crash Reduction Potential	2.1 Pavement Condition Improvement 2.2 Bridge Condition Improvement 2.3 Other Asset Improvement	3.1 Population Accessibility 3.2 Travel Time Reliability	4.1 Business Accessibility 4.2 Economic Development Potential	5.1 Environmental Risk 5.2 GHG Reduction and Other Environmental Enhancements 5.3 Resilience 5.4 Reduce Future Maintenance	6.1 Project Connectivity 6.2 Multimodal Access 6.3 Community Destinations

Strategic recommendations made by applying Harmonization

- Establish funding capacity & eligibility
- Considers the type of work and timing of delivery
- Evaluate impact of selected projects on NDOT performance measures
- Evaluate distribution of investments geographically across the state
