

STATE OF NEVADA DEPARTMENT OF TRANSPORTATION

September 20, 1994

TP 1-10-2 Formerly TP 6-1-2

Approved 

Sidewalk Construction
Maintenance

1. PURPOSE

To establish a uniform policy on construction and maintenance of sidewalks on State Highway right-of-way.

2. POLICY

Sidewalks previously constructed by State within State Right-of-Way will be repaired and maintained by State. In urban areas where pedestrian traffic is anticipated and funds are available, State will construct new sidewalk within existing State Right-of-Way. New sidewalk will only be considered in conjunction with a planned reconstruction or new construction roadway project.

3. SCOPE

This TP is applicable to all sidewalks on State Highway right-of-way throughout the state.

4. RESPONSIBILITY

District Engineers, Right-of-Way and Construction Division personnel dealing with the public in areas relative to sidewalks on State Highway right-of-ways shall conform to this TP.

5. APPLICATION OF POLICY

- a. Property owners' inquiries relating to sidewalks shall be referred to the District Engineer.
- b. The District Engineer shall advise the property owner of the Department's policy of involvement in sidewalk construction or maintenance.
- c. The District Engineer may suggest the property owner inquire at the county or city offices regarding their policies on sidewalks. Exceptions to this TP will be made only in cases approved by the Director or his representative.
