NDOT SAFETY/LOSS CONTROL SECTION

Closing the gap on employee and highway safety

NDOT's SAFETY CENTER WILL ASSIST YOU TO MEET OSHA, EPA AND NFPA REGULATIONS

FLEXIBLE, CUSTOMIZED TRAINING

NDOT's Safety Section does not say "No." Need training for the graveyard shift on a Sunday? Want training held at your facility? We pride ourselves on our adaptability to help you meet your goals. Training can be:

- **Offered 24 hours a day, seven days a week**
- At your workplace, the field or a training facility
- Customized to your facility, equipment, product, and employees.
- We cover all of NDOT.

WORKERS' COMPENSATION PROGRAM

If you are injured on the job, NDOT has a full time claims manager dedicated to assist managers, supervisors and injured employees through the often complex workers' compensation system.

NDOT IS IN THE TRENCHES WITH YOU

NDOT's specialty is to offer the relevant safety training your employees need to stay effective and efficient at work. Our staff and instructors are real-world trained specialists who have worked in the field and know the realities of safety.

SERVICES TO HELP YOU FULFILL YOUR SAFETY GOALS

NDOT Safety/Loss Control Section offers a wide-range of instruction and services. Let us know if you do not see the type of program you would like us to offer, so we can design it for you.

- Employee, management, train-the-trainer programs
- Accident investigations
- Safety programs created and written for your specific needs
- Quarterly scheduled safety classes
- Evaluate and specify appropriate personal protective equipment
- Keep employees up to date with current regulatory information
- Provide direction, evaluate and support of existing in-house program resources
- Indoor air quality evaluations - Contractor/ SCATS Services
- Provide technical assistance with State, Federal, NFPA, and Local regulations
- DVD lending library/Catalog

SITE SURVEYS

On-site surveys are an easy and effective way to find out what, if any, issues may need attention in the workplace. We can help identify areas of concern and assist in the development of effective safety and health programs to minimize risk. Be in compliance with our State and Federal requirements.

NOW TELL US HOW WE CAN ASSIST YOU?

Here are sample employee safety programs, services and training topics. Please circle the areas of interest to you and your District, Division, Department and/or crew number, so we can contact you with additional information.
