Carson City, Nevada

Randy Bowling is a skilled civil engineer with extensive experience in both the private and public sectors. Randy started his career with the Nevada Department of Transportation as an engineer in construction and environmental studies. After ten years, Randy entered private practice, bringing transportation planning, design, and construction experience and knowledge to private and public clients. With his diverse experience gained from a variety of projects and clients, Randy has the skills necessary to identify key objectives in complex situations to resolve competing project priorities.

EXPERIENCE **Semi-Retired**, Carson City, Nevada, 2019 – Present

Consulting for agencies and engineering firms relating to construction management and engineering-related topics. Serving as Dispute Review Board (DRB) member, including tenure as Chair.
