

NEVADA DEPARTMENT OF TRANSPORTATION - RESEARCH SECTION

EXTERNAL PRODUCT/MATERIAL ACCEPTANCE CRITERIA  
QPL Section 702.03.05 – POZZOLANS

**Category Description:** Pozzolan admixture for cement.

**Primary Evaluating Section:** Materials

**Evaluation Criteria (adopted 03/16/2023):**

Requirement	Criteria	Test
Fly Ash Admixture – Class F or N only	ASTM C618 (except LOI)	Pass/Fail
Loss on Ignition (LOI)	ASTM C311	Max. 5%

**Instructions to Applicants:**

Submit independent laboratory testing which demonstrates conformance to the above stated criteria along with completed application for product evaluation and other supporting documentation. The laboratory furnishing the test data must conform to all requirements outlined in 702.03.05 of the current NDOT Standard Specifications for Road and Bridge Construction.

**Do not submit samples at this time.** If your application passes the initial screening, NDOT will contact you to request a one-gallon sample of the product, for final approval testing. If the product passes final testing, it will be considered at the next quarterly product evaluation committee meeting.

**Instructions to Approved Vendors:**

Products which are approved for the QPL must comply with the reporting requirements listed in their QPL acceptance letter and outlined in 702.03.05 of the current NDOT Standard Specifications for Road and Bridge Construction. Failure to do so will result in loss of QPL status.
