

Terms and Conditions

All existing violations must be brought into compliance prior to approval of new billboard applications or permits.

Any false or erroneous information will void the permit.

Sign shall not be erected over any Nevada Department of Transportation right-of-way.

Permit tag must be affixed to sign and visible to controlled roadway prior to advertising being placed on sign.

It is the responsibility of the sign company to locate all property lines, including NDOT right-of-way lines.

Sign must be built within 180 days of the issuance of this permit or permit will be canceled with forfeiture of all fees.

Sign must be built in the EXACT location approved on the permit.

No flashing or intermittent lights, and illumination lights must be shielded from traffic.

NAC 410.420 Change of ownership. ([NRS 410.400](#))

1. If an outdoor advertising sign governed by the provisions of [NAC 410.200](#) to [410.440](#), inclusive, changes ownership, the new owner shall inform the Department of the change within 60 days after the change of ownership or November 1 of the calendar year, whichever is sooner, to allow enough time to change the name and address on the billing for the permit fee.

2. A notice given pursuant to this section must include a bill of sale from the previous owner to the new owner or an affidavit signed by the previous owner confirming the change in ownership.

[Dep't of Highways, Outdoor Advertising Control Manual p. 21, eff. 1-28-77]—(NAC A by Dep't of Transportation by R058-97, 12-11-98)

If an outdoor advertising sign governed by the provisions of NAC 410.200 to 410.440, inclusive, changes ownership, the new owner shall inform the Department of the change within 60 days after the change of ownership or November 1 of the calendar year, whichever is sooner, to allow enough time to change the name and address on the billing for the permit fee.

A notice given pursuant to this section must include a bill of sale from the previous owner to the new owner or an affidavit signed by the previous owner confirming the change in ownership. [Dept of Highways, Outdoor Advertising Control Manual p. 21, eff. 1-28-77]—(NAC A by Dept of Transportation by R058-97, 12-11-98)

If the site of the proposed sign conforms, a metal permit tag will be issued for the proposed sign and furnished to the applicant with a copy of the approved sign permit application. The applicant will be responsible for conspicuously attaching the metal permit tag to the specific sign structure for which it is issued so that it is visible from the roadway. In lieu of attaching the metal permit tag, the applicant may paint the assigned permit number on the sign at a location that is clearly visible from the roadway. If the sign is painted, the same color scheme utilized on the tag, which is yellow on black, must be followed.

The yellow numerals must be painted on the solid black background measuring at least 6 inches by 12 inches. The yellow numerals must be at least 2 1/2 inches high and must be clearly legible.

The permit holder must remain in control of the sign at all times even if a third party is operating the message board. If a violation is found, the sign permit holder must correct the error or turn the sign off within 24 hours of notification by mail, telephone, or e-mail.

Permittee must have approval from the District Engineer prior to making any changes to the sign style or the sign dimensions.
