

## TRANSPORTATION NOTICE VIRTUAL PUBLIC INFORMATION MEETING FOR I-80 CARLIN & ELKO LANDSCAPE AND AESTHETICS PROJECTS

**PURPOSE OF MEETING:** The Nevada Department of Transportation (NDOT) invites you to attend a virtual public information meeting for the Interstate 80 Carlin and Elko Landscape and Aesthetics projects, which are part of the NDOT's Landscape and Aesthetics five-year plan. This meeting is an opportunity for members of the public to review NDOT's planned improvements along four I-80 interchanges in northern Nevada and submit questions or comments regarding the design.

**PROJECT BENEFITS:** The goals for the Carlin project include creating gateway architectural elements that will build on existing bridge improvements as well as enhancing the city's culture and presence for residents and the traveling public. Improvements will help tell the story of Carlin and its heritage, honoring the contributions of Chinese Railroad workers, gold, the Carlin Trend, and railroad. Additionally, improvements will address erosion control through the use of decorative rock.

The goals for the Elko project include creating gateway architectural elements that will complement and highlight Elko's unique identity through two major interstate access points. Improvements to address erosion concerns and enhance native and adapted plant life are also included. Landscape and aesthetic elements will be incorporated to help tell the story of Elko, showcasing its rich heritage and culture rooted in the traditions of ranching and cowboy lifestyles. Imagery includes tack and livestock.
