

# Table of Contents

<b>Introduction .....</b>	<b>1</b>
<b>1.0 Study Area .....</b>	<b>2</b>
<b>2.0 Existing Conditions and Needs Assessment .....</b>	<b>3</b>
Collected Traffic Data .....	3
Roadway Conditions .....	3
Demographics .....	3
Environmental Resources .....	6
Economic Assessment .....	7
Accident Locations and Operational Deficiencies .....	8
Summary of Transportation Planning Efforts .....	9
<b>3.0 Future Conditions and Needs Assessment.....</b>	<b>10</b>
Latent Capacity Analysis .....	10
Quick Response Freight Model .....	11
Access Evaluation .....	12
ITS Improvements .....	14
Potential Alternative Solutions .....	16
Criteria Alternative Matrix (CAM) Evaluation .....	18
Early Action Plan.....	19
<b>4.0 Public and Stakeholder Involvement .....</b>	<b>20</b>

## Technical Reports

Appendix A	Collected Traffic Data
Appendix B	Existing Roadway Conditions
Appendix C	Demographic Data Analysis
Appendix D	Environmental Resources
Appendix E	Accident Locations and Operational Deficiencies
Appendix F	Summary of Transportation Planning Efforts
Appendix G	Latent Capacity Analysis
Appendix H	Quick Response Freight Model
Appendix I	Access Evaluation
Appendix J	ITS Alternatives
Appendix K	Potential Alternative Solutions
Appendix L	Criteria Alternative Evaluation
Appendix M	Early Action Plan
Appendix N	Report of Outreach Efforts to Stakeholders and Public
Appendix O	Supporting Documents
