

The I-64 Daniel Boone Missouri River Bridge Project

“Connecting the Saints for a Century”

On this project, the Boone Bridge team will:

- › Produce a quality project that achieves schedule and financial success;
- › Ensure everyone gets home safely with zero injuries for our workers and safety for the motoring public;
- › Foster good team work through mutual respect, timely and transparent communication;
- › Embrace diversity by showing respect and encouraging collaboration throughout the team;
- › Be a good steward of the environment;
- › Deliver a world class Design-Build project that garners customer and community satisfaction for 100+ years of bridge service life;
- › Produce results that promote long term partnerships between the team members; and
- › Celebrate results, milestones and successes as a team.

With these common goals at the forefront, the mutual trust, passion and integrity of our team will create an environment that is fun and rewarding and will achieve success for all parties.
