

SCORING CRITERIA

1. **Project Preparedness:**

Does the application provide documented need of the project's degree of preparedness for TAP funding?

For example, is there a clear statement of the proposed scope and schedule for the project that is realistic given the level of potentially available resources and the time required to move the project forward toward successful completion?

2. **Benefits to Transportation Safety:**

Does the application provide documented need of the potential benefits for transportation safety for non-motorized transportation travelers?

3. **Benefits to Non-Motorized Mobility and Travel Choices:**

Does the application provide documented need of the potential benefits for mobility improvements and increased travel choices for non-motorized travelers?

4. **Consistency with Federal Transportation Alternatives Program Goals:**

Does the application provide documented need of the consistency of the proposed project with USDOT/FHWA and Nevada DOT Transportation Alternatives Goals and Guidance?

5. **Consistency with NDOT Transportation Alternatives Program Guidance and Consistency with Local Planning and Community Goals:**

Is the proposed project clearly consistent with documented local planning priorities and community goals?
